

NNR - SERIES

REAR DISCHARGE DUMP BODY.

FEATURES & BENEFITS:

1. Available in a variety of carbon and stainless steel materials for cost effectiveness, corrosion resistance and durability.
2. Prism-shaped tapered body design allows compacted and irregularly shaped materials to exit the rear of the dump body without lodging.
3. 6-panel tailgate with 1-1/2" diameter stainless steel pivot and locking pins for superior strength and corrosion resistance.
4. Manifold grease system ensures all critical wear points are serviced.
5. Tailgate is locked in place with twin pneumatic cylinders and over-center latch mechanisms to ensure trouble-free operation.
6. Stainless steel corner post and tailgate trip mechanism is standard on carbon steel models to provide additional corrosion resistance.
7. Body shape provides area for optional high capacity pre-wet system.

NNR15	15' - 2"	120" C/T	11.3 yd ³	14.2 yd ³	16.8 yd ³	540 gal
NNR16	16' - 2"	132" C/T	12.1 yd ³	15.2 yd ³	18.0 yd ³	550 gal

* With Side Boards

BODY DIMENSIONS

Bulkhead height 50 ½"
 Inside body width 87"
 Long sill height 14 ½"
 Side wall height 40 ½"
 Tailgate height 49 ½"

BODY CONSTRUCTION

Bulkhead 7 gauge
 Floor ¼"
 Long sill ¼"
 Side wall 7 gauge
 Tailgate 7 gauge

OPTIONAL ACCESSORIES

1. Air foil
2. Cab shield
3. Light packages
4. Mud flaps
5. Observation ladder
6. Fenders, poly or metal
7. Rear spill pan
8. Poly tank pre-wet system
9. Tarp kit
10. Hoist kit
11. Side boards, wood Or steel
12. Vibrator
13. Top apron screen
14. Body riser kit
